CONDITION OF THE MARKETS

Wheat Opens Weak but Ranges Much Higher During the Day at Chicago.

Deferred Futures Close at a Slight Advance-Corn and Oats Active with Better Values -Pork Active and Irregular.

MONEY, STOCKS AND BONDS, General All-Around Tumble in Values, Due Chiefly to the Rate-Cutting.

NEW YORK, May 21.-Money on call was close, ranging from 4 to 8 per cent., the last loan being made at 4, closing offered at 4.

Prime mercantile paper 5@7 per cent. Sterling exchange quiet and steady at \$4.8314 for sixty-day bills and \$4.8514 for de-

The total sales of stocks to-day were 563,-041 shares, including the following: Atchison, 86,590; Canada Southern, 3,330; Delaware, Lackawanna & Western, 12,040; Erie, 3,215; Missouri Pacific, 10,700; Northern Pacific, 27,885; Oregon Transcontinental, 28,135; Reading, 31,050; Richmond & West Point, 106,655; St. Paul, 11,243; Texas Pacific, 9,350; Union Pacific, 6,435; Western Union, 4,032.

The stock market was again very active and feverish, to-day, with a general down-ward tendency, though it was not until the last few minutes of business, when a determined raid was made upon the few vulnerable points in the list, that any material impression was made on values. There were many different influences which had a bearing upon the course of prices, and while the general list suffered still from the realizations of long stock, the deals in Richmond & West Point, C., C., C. & St. Louis and Atchison made those properties prominent in the dealings, and the decision which throws the Sugar case out of court was a factor in the early rise in the Sugar Refineries. The very threatening letter of President Manvel, of the Atchison, to Mr. Gould, published this morning, however, had the effect of frightening many weak holders who fear that the letter will be the signal for a more extended struggle than those new in course. The reports of than those now in course. The reports of further cuts in rates in the West also had some effect in causing realizations. The money market started out with 8 per cent. rates, but finally closed at 4, and there was no searcity of money during the day at ruling rates. The plan of the Richmond & West Point makes the rights on the stock worth about 13, per cent. the stock worth about 134 per cent., and the deal caused lively trading in the stock. the deal caused lively trading in the stock, the dealings running up to over 100,000 shares, which has not been done in a long time in any stock. London was again a seller this morning, and, with the early figures from London generally lower, there was a weak and feverish opening to the market, which after that time frequently changed in tone through the day; but the general course of prices was downward, and the best prices were generally made at the opening, except in the few stocks which were influenced by particular means, and the lowest were almost invariably those of the close. The advances in Sugar and Rich-mond & West Point during the early dealings were marked, but Atchison was weak from the outset, notwithstanding the fact that the pending consummation of its acquisition of the St. Louis & San Francisco and the final abandonment of the voting trust was regarded in a very favorable light. The threatened war with the Missouri Pacific overshadowed all down the grangers, although Northwestern was a noted exception. The progress made in the downward direction was small, howin the downward direction was small, however, until the last few minutes of business.
when a most vigorous raid rattled prices
off rapidly, especially in Sugar, West Point
and some of the other prominent stocks.
The market closed very active and decidedly weak at the lower points. The list is
almost all lower to-night, and Atchison
is down 23s; Sugar, 21s; Colorado Coal, 112;
Reading and C., C., C. & St. Louis 13s each,
and Wheeling & Lake Erie preferred and
Mexican Central each 11s, while the only
advance of note was 1 per cent, in Delaware
& Hudson.

Railroad bonds seemed to share the feverishness of stocks, and the market showed a greater number of weak points than for a long time with a smaller and better distributed business than usual of late. Atchison incomes and fours and Texas Pacific seconds were the only active specialties. the total dealings reaching \$2,385,000. Can-ada Southern firsts, Northwestern exten-sion fours, Cleveland & Canton firsts, Fort Wayne thirds and Atlantic & Pacific incomes were the weak spots, while Burlington consols, some of the Louisville bonds and Ontario & Western firsts were the

Government bonds were dull and steady. while State bonds were entirely neglected. Closing quotations were:

NEW YORK, May 21.-Bar silver, \$1.034. LONDON, May 21.-Bar silver, 471sd per

TRADING AT CHICAGO.

Wheat Ranges Higher, and Corn and Oats

Follow-Pork Irregular. CHICAGO, May 21.-Trading in wheat was active and the market more or less excited at times. Large local business was done, and also more on outside account. The opening was weaker, and for July was 38@34c lower, eased off a trifle more, and then with some fluctuations became quite strong, and advanced 24c above the inside figures reached. The advance was accompanied with some excitement, and fluctuations were rapid. Later it eased off gradually 14c, and closed about 1sc higher than yesterday. May and June both closed about the same as yesterday. August and the deferred deliveries all shared in the advance, which would indicate that the buying was largely on bad crop news, and that the next crop may be disappointing. The weakness at opening was due to the discouraging tenor of market reports from abroad and better prospects in the Northwest. On the other hand a batch of bad crop reports from the Southwest had the effect of converting to the bull side some of the most prominent bear traders, who bought freely. The fact of the August and the more deferred futures advancing proportionately to about the same extent as July would indicate that some parties anticipated a maintenance of present prices, or possibly a higher range when the new crop begins to move and the damage be fully realized. There was a large trade in corn, and the feeling was quite unsettled, prices fluctuating fre-quently within 34@1c range. The situation at the opening was rather easier, first sales being a trifle under the final quotations of yesterday, but prices soon started up and advanced sharply 78@lc upon the buying of July by a prominent trader. Prices later reacted, declining 12c, ruled steady, and closed 14@3sc better than yesterday.
Oats were active and higher. The
feature was the increased trading in
July and the more deferred futures.
There was a good supply of buying orders
from local and outside parties, and rather light offerings, especially at the opening, which was at the same to a slight advance. June was off a trifle, but July rallied and advanced ⁵sc. This induced fair offerings for July, and prices receded ³sc. The other deliveries held steady, closing with fair gains over yesterday's last sales. There was rather more activity in pork, but prices ruled irregular. The inquiry was chiefly for July, and it advanced 10 215c. Towards of the content of the c

the close the feeling was easier, and prices settled back again 40@45c, but rallied suddenly again 20@25c, and closed quiet. Trading in lard was only fair, and the feeling was easy. Prices ruled .02½.0.05c lower, but rallied slightly towards the close. A fair trade was reported in short-ribs, but the feeling was easier during the early part of the day. Prices declined .02½.0.05c, but towards the close exhibited more strength, and prices advanced slightly. The leading futures ranged as follows:

Openi'g. Highest. | Lowest. | Closing 96¹2 93⁵8 96¹4 94 95⁷8 93⁵8 34¹4 33¹2 34¹4 33¹2 35 34¹8 28¹9 28 27¹9 26⁷8 27¹4 \$12.35 Wheat-May. June.... July..... Corn-May.... Oats-May ... Pork-July ... Lard-June ... \$12.20 \$12.35 6.27¹2 6.42¹2 July.... Sept.... Sh'rt ribs-J'ne 5.3712

Cash quotations were as follows: Flour firm and unchanged; No. 2 spring wheat, 34 @95c; No. 3 spring wheat, 75@80c; No. 2 red, 94@95c; No. 2 corn, 337sc; No. 2 oats, 283sc; No. 2 white oats, 30@3012c; No. 3 white, 29@2934c; No. 2 rye, 52c; No. 2 barley, nominal; No. 1 flaxseed, \$1.48; prime timothy-seed, \$1.30; mess pork, per brl, \$13; lard, per lb, 6.1712c; short-rib sides (loose), 5.25@5.30c; dry salted shoulders (boxed), 5.10@5.20e; short-clear sides (boxed), 5.75@5.85c; whisky, distillers' finished goods, per gal, \$1.02; sugars unchanged.

on the Produce Exchange, to-day, the butter market was easier, but not quotably lower. Eggs, 13c.

INDIANAPOLIS MARKETS.

Trade Is Improving Somewhat, with Prices

Ruling Firm as a Rule.

INDIANAPOLIS, May 21.

In most departments to-day trade was more active than in either of the preceding days of this week, while prices all along the line carry a firm tone. Dry goods of all descriptions are moving better, and prices have an upward rather than a downward tendency. In groceries a steady strong tone is noticeable. In commenting on the staple articles an Eastern commercial paper says of coffees: "The market for Rio coffee is quiet, though the band-to-mouth trade of the past few days is assuming rather better proportions, showing that the trade is getting down to where it must have coffee. The New York market last comes in as opening quiet with 5 to 10 points advance." Of teas the same authority says: "The tea market is very quiet. in spite of the little spurt noted last week. About the best that can be said is that the slight advance in prices has been sustained. The market on new teas is very steady. New Congous have opened at about the same prices as last year, but the bnying has been quite heavy for this early in the season." And of sugar it thus speaks: "The sugar market is quiet. Raws are steady, with the arrivals on retiners' account heavy. The market on raw shows very little The market on raw shows very little change." The produce markets are active, all arrivals of every article handled at this season of the year move promptly, there being no accumulation of stock worthy of note. Strawberries are coming in quite but on choice truit prices rule strong. Eggs and poultry are firm at quotations. Butter plenty and weak in price.

The local market rules steady and firm. Receipts are heavier than last week. All cereals are in good request as they arrive, at the following range of prices, track:

Wheat—No. 2 red, 96c bid; No. 3 red 90c; rejected 72½@80c; unmerchantable, 60@70c. Corn—No. 1 white, 36½c; No. 2 white, 35½c; No. 3 white, 34c; No. 4 white, 33½c; No. 2 yellow, 34c; No. 3 yellow, 33½c; No. 4 yellow, 35c; No. 2 mixed, 34½c; No. 3 mixed, 34¼c; No. 4 mixed, 33c; mixed ear, 34c; yellow, 35c; white, 34@55c, latter for one color. Who Has Stolen? The misappropriation of funds is being discussed every day by voice or pen. The absconding treasurer figures largely in the news. The list of adjectives strong enough to describe his meanness is brief.

There are other ways of robbery. We sometimes see a man who, some will say, is working himself to death for his family. And it looks like it, if he is bending every And it looks like it, if he is bending every energy to accumulate means which an extravagant, idle family waste upon their own pleasure. After his helpless ones have been provided for, all that is taken for unnecessary pleasures or opportunities which he must deny himself of, is robbery.

There is farmer Blank. His son Dashwell is a very prodigy, in the eyes of his father or mother. He must be dressed in the best broadcloth, sent to an expensive school, when almost any common school is

school, when almost any common school is good enough; and he must be furnished with money for base-ball clubs, and other supposititious needs. His mother dresses like a gypsy. His brothers plow, and hoe, and rake from dawn till dusk. His sisters depend for all their plain clothes upon the products of a small dairy. And the "swell" brother looks down upon them when he comes home. What is the name for this state of affairs? Robbery is one name. If these parents had but this one child it were only ill treating themselves to thus give him all their service, and wronging him to train him up in a way to receive such services as his right. But in the case of his brothers and sisters it is not treating

them fairly—honestly.

There is a case of a late authoress who, from the proceeds of her writings, paid all the debts of her "philanthropic" (f) father; then, in delicate health, plied her pen to send a sister abroad, and to sustain appearances, rather than to live in comfort. All ended in breakdown and death for herself, and much money for her family. In its possession are they now happy? Do they

People need to study some parts of the Bible more. "As ye would that others should do unto you, do ye even so unto them." Of the two greatest of all the commandments this is one.

Farmer Blank has at times his misgivings; his wife has hers. Why do they not put this commandment with their common sense, and allow themselves to be drawn out of this pit? Why do they not treat all their children justly? They will have this question to answer in the day of judgment, whatever and whenever that day is.

The old story of the mother sawing wood in the cellar, while the daughter in the parlor at the piane sang "Who will Core

parlor at the piano sang "Who will Care for Mother Now?" is inconsistent. It is in-consistent, under all ordinary circum-stances, for a family to have a piano who cannot afford to hire their wood sawed.. The rich man, who has the wood brought

to him in the rough, and has, or allows, the women or hired girl to saw and cut it for the stove, what of him? Well, he needs to the stove, what of him? Well, he needs to study the commandments to do them, if he likes that kind of study. Otherwise, he should be turned over to the mercies of some "woman's club" for instruction, reproof, and a new consideration of the commandment "Thou shalt not steal," and apply it to time or strength he demands of another without the proper compensation.

Let some of the Journal sisters come forward and tell us something pleasant—tell us of some happy families where all things us of some happy families where all things are made equal, or as near so as they may be in a world where some inequalities must COUNTRY SISTER,

HILLSIDE, Ind.

THE

DAILY, SUNDAY and WEEKLY

The Most Complete Newspaper in all Departments in the State of Indiana.

No newspaper in the West is more widely or more favorably known than the Indianapolis Journal. By the display of enterprise and strict attention to the wants of the reading public, during the great campaign of 1888, it has taken a leading position among the most prominent journals of the country, and is certainly among the best. Among the newspapers of the State it is pre-eminently the best, and Indiana readers can nowhere else find what they want in the way of State and local news. It circulates largely in every county in Indiana, and has correspondents in every town and village of importance. Its market reports are prepared with the greatest care possible, and no pains or expense are spared to make them accurate and absolutely reliable. It is the only newspaper in the State owning and publishing all the news furnished by the two great press associations (the Western Associated Press and the United Press). in addition to which it furnishes an abundance of special service from all the principal cities of the country. It has been, and will in future be, the aim of the publishers to make the Indianap-OLIS JOURNAL a perfect and complete newspaper, deficient in no department or particular. The paper challenges comparison with any of its contempo-

No Indiana reader, certainly no Indiana Republican, should be without the Journal. While it is thoroughly and soundly Republican in politics, devoted to the interests of the Republican party. the Journal will not allow its news to be colored by partisan bias, but will give the news of the day without fear or

Owing to the prominence of Indiana in the national administration, the Journal gives particular attention to Washington news, which will be given far more completely than ever before. For this reason, if for no other, no Indiana reader can afford to be without it for the next four years.

In addition to its new features, the Journal regales its readers with the productions of some of the best known literary nien and women of the day. Many of the most celebrated magazine writers and authors are contributors to its literary columns, making it a paper for the household and home circle. Special arrangements have been made for features of this character, which will appear in the Journal during the coming year. These appear most largely in the SUNDAY JOURNAL, which is a special edition, and can be subscribed for and received exclusive of the DAILY JOURNAL.

THE

INDIANA STATE JOURNAL

(THE WEEKLY EDITION)

One Dollar per year, has a circulation extending to every county in Indiana and adjacent territory. It is a complete compendium of the news of the week, accompanied by the latest market reports, and special departments devoted to agricultural, horticultural and household topics.
